

Wired Hoop Earrings

Materials

- 1 pr Large Hoop Earrings
- 3ft 28g wire (cut in half)
- Faceted Seed Beads

Tools

- Round Nose Plier
- Chain Nose Plier
- Wirecutter

Step One

Holding onto a 1" tail of wire, wind the end of the wire around the top of top of the hoop 4 or 5 times to anchor.

Step Two

Add about 3" of the beads onto the wire and tie a loose knot at the end. (you may need to add more beads or take some off)

Step Three

Slide a bead up and hold in place while you wrap the wire once around the hoop.

Step Four

Continue to slide bead & wrap wire until hoop is fully wrapped.

Step Five

Anchor the wire on the end of the hoop. Trim the tails & tuck ends down.
